

DB Feud 2025 - Game 3

(requires 2 teams of 3-5 players each)

The rules are the same, but if you need a refresher...

Rules

You are to separate into 2 teams of equal size.

In each round, a member of each team is gathered and the two are presented with a question and the number of top answers.

Each question was answered by 100, 200 or 300 chat members.

NORMALLY each group would have something common between them which may or may not help you answer, but this time... Nah.

All encompassing and none encompassing answers are not counted nor included. For example, if the question is "What is your favorite ice cream flavor?" "All of them" or "I don't like ice cream" would not be included as potential answers.

As always, other popular answers that do not fit the category or the spirit of the question are included.

A player must buzz-in and give an answer. If the answer is not on the board or not the top answer, the contestant who didn't buzz in can give an answer.

The player with the topmost answer may choose to play or pass the question to the other team.

The team members must then each give an answer that fits the category. If it's on the board, the points for the answer are added to the bank. If it's not, the team gets a strike.

After three strikes, the opposing team gets the chance to give a single answer that has yet to be revealed on the board. If they get it right, they win the bank. If not, the playing team is awarded the banked points.

After 4 rounds, the team with the most points gets to play the bonus round.
